GLOBAL GUARDIAN

2027 Global Risk Map

The Global Risk Map highlights safety and security risk ratings based on a series of indicators including crime, conflict, health, natural disasters, transportation and infrastructure, political stability, civil unrest, and terrorism. The map aims to inform businesses and their travelers of the risks they face abroad.

EXTREME

Extreme Risk regions experience active conflict alongside severe criminal activity and civil unrest. State institutions are too weak to contain militant groups or respond to large-scale disasters.

HIGH

High Risk regions experience recurring conflict, criminal activity, or civil unrest. State institutions are weak and cannot manage crises effectively.

MEDIUM

Medium Risk regions are not fully secure. Political instability and inadequate law enforcement leave them vulnerable to crime and sporadic unrest, and state institutions are often ill-equipped to manage crises. Regions may also be classified as Medium Risk based on remoteness and limited access to medical care.

MODERATE

Moderate Risk regions are resilient and can manage most crises and threats to personal security quickly and effectively. Criminal activity, terrorism, and natural disasters may still disrupt travel or local operations.

LOW

Low Risk regions are highly stable, with a strong rule of law and effective institutions. Threats to safety and security are isolated and quickly contained.

HIGHEST RISK CITIES

- Culiacán, Mexico
- Durban, South Africa
- Goma, Democratic Rep. of the Congo
- Guatemala City, Guatemala
- Guayaquil, Ecuador
- Khartoum, Sudan
- Mogadishu, Somalia
- Port Moresby, Papua New Guinea
- Port-au-Prince, Haiti
- Quetta, Pakistan

HIGHEST ARBITRARY DETENTION RISK COUNTRIES

- Afghanistan
- Belarus
- China
- Eritrea
- Iran
- Iraq
- Myanmar
- Nicaragua
- North Korea
- Russia

HIGHEST HEALTH RISK COUNTRIES

- Afghanistan
- Burkina Faso
- Burundi
- Central African Rep.
- Democratic Rep. of the Congo
- Guinea-Bissau
- Haiti
- Liberia
- Mali
- Niger
- North Korea
- Sierra Leone
- Somalia
- South Sudan
- Sudan
- Syria
- Yemen

HIGHEST ENVIRONMENTAL RISK COUNTRIES

- China
- Colombia
- India
- Indonesia
- Mexico
- Mozambique
- Myanmar
- Pakistan
- Philippines
- Russia

HIGHEST DATA EXPOSURE RISK REGIONS

- China
- Cuba
- Hong Kong
- Iran
- Macau
- Russia
